RATS DIE

so do mice, once they eat RAT-SNAP. And they leave no odor behind. Don't take our word for it—try a package. Cats and dogs won't touch it. Rats pass up all food to get RAT-SNAP. Three sizes.

35c size (1 cake) enough for Pantry, Kitchen or Cellar.
65c size (2 cakes) for Chicken House, coops, or small buildings.
\$1.25 size (5 cakes) enough for farm and out-buildings, storage buildings, or factory buildings.
Sold and Guaranteed by Crenshaw & Young, Lexington, Mo.

The Public School Column.

The public schools opened Monday, September 4th. The regular program was followed in the High School, enrollment having been practically completed on Friday and Saturday of last week. In the elementary schools pupils were classified and assignments made in the morning and classes held in the afternoon.

A large high school enrollment was anticipated but the most sanguine expectations were exceeded when the total reached 225—111 of whom were boys and 114 girls. The first day total for last year—the highest previous first day enrollment—was 187. While several classes are over-crowded and the room problem is acute, provision is being made to adequately take care of an even larger number of pupils if necessary.

The rapid growth of the High School the past few years may best be shown by a comparison of the enrollment totals since 1907:

1907	28	44	72
1908	46	65	111
1909	56	74	130
1910	52	73	125
1911	57	69	126
1912	42	80	122
1913	41	80	121
1914	42	67	109
1915	62	71	133
1916	84	90	174
1917	81	98	179
1918	59	105	164
1919	73	101	174
1920	75	96	171
1921	89	98	187
1922	111	114	225

It will be observed that the enrollment has increased 200% since 1907 and more than 100% since 1914.

Enrollment totals in the grades are practically the same as last year. Three grades, 1B and 4A-5B of the Arnold school and the first grade at Taylor are very crowded.

The home economics department of the High School had an exhibit of dresses at the Education Building of the State Fair at Sedalia. While no prizes were offered for this work, the display was highly complimented by the State Supervisor of Vocational Home Economics.

That parents in school districts adjacent to Lexington appreciate the opportunities offered in the Lexington High School is indicated by the large number of non-resident pupils. Non-resident pupils who are attending the High School for the first time are:

Charles F. Eastabrooks from Burns school; Raymond Royce from Bunceton; Robert Red and Eldon Weedon of Dover; Sebert Holman, Elm Park school; Velma Martin and Katie Roncelli; Glenwood; Lucile Ashford, Hicklin; Mary E. Davis, Irving; Esther Uphaus and Elliot Kroeck, Locust Grove; Georgie F. Hulver, Maple Glen; Helen Amos, Everett Bramlett, Josephine Edmonds, Geno Fiora, Martin Lafont, Ruth Nystrom, Delia Oliaro, Hortense Pitton, Christine Roncelli, Elda Spelta, Leah Spelta and Vera Simmons from Marshall; Lulu Mary Waddell and Chalmers Young, Prairie; Mildred Nelson, Beulah Nelson and Lilburn Arth, Shusher; Freda Fallman and Imogene Lineback, Wellington.

Every pupil graduated from the Marshall school last May has enrolled in Lexington High School this year. This is a fine record and one of which the Marshall district may rightfully feel proud.

Football prospects appear good. About forty boys reported for the first practice. Nine of this squad—G. Haerie, captain; Temple, Salyers, Waddell, Ellis, Wiley, Maib, Holleron—were members of the 1921 team. Coach Dirckx is at work on the schedule and hopes to have it completed shortly. Games have already been arranged with Marshall, Higginsville and Sedalia.

Making 20 Years of Racing Serve Car Owners Today

IN the early days of automobile contests, Barney Oldfield—out to win every race—studied tires. His consistent success led other drivers to ask for tires constructed to his specifications.

Twenty years of road and track victories—with a steady and increasing demand for tires as he built them—convinced Barney Oldfield that these speed tests pointed the way to a better tire for everyday use.

The enthusiastic reception of Oldfield Cords by the public proved he was right. Scores of the most prominent dealers in the country—and many thousands of car owners, experienced in the use of tires—bear witness by their decided preference that Oldfield is doing a bigger and better job of tire making.

This volume, handled in an effective way in every phase of manufac-

ture and distribution, has resulted in price quotations far below what you'd expect on tires known to be better built and more enduring.

Practically every important race event for three years has been won on Oldfields. The Wichita Test Run in which an entire set of Oldfield Cords covered 34,525 miles on rough roads proves the mettle of the Most Trustworthy Tires Built in everyday driving.

The Master Driver and Tire Builder has given the public a new standard of tire wear and tire cost—a true economy that every car owner should know about.

Your Oldfield dealer has these facts—talk to him.
